Have you had your printer serviced lately?

As with all printers, regular maintenance is essential for continued reliable use. You don't want your DesignJet to stop in the middle of a job, when routine maintenance could have alerted you to potential problems before they cost you money.

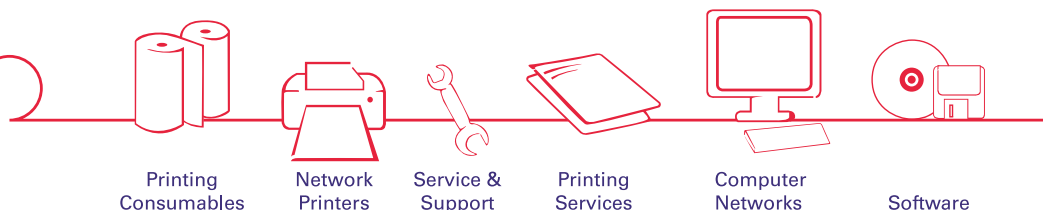

We are currently offering

- No call out fee
- No travel charge

This is a saving in excess of \$80 upfront, with the potential saving to you being significantly more, when you need it.
